

August 2018 SEO Report

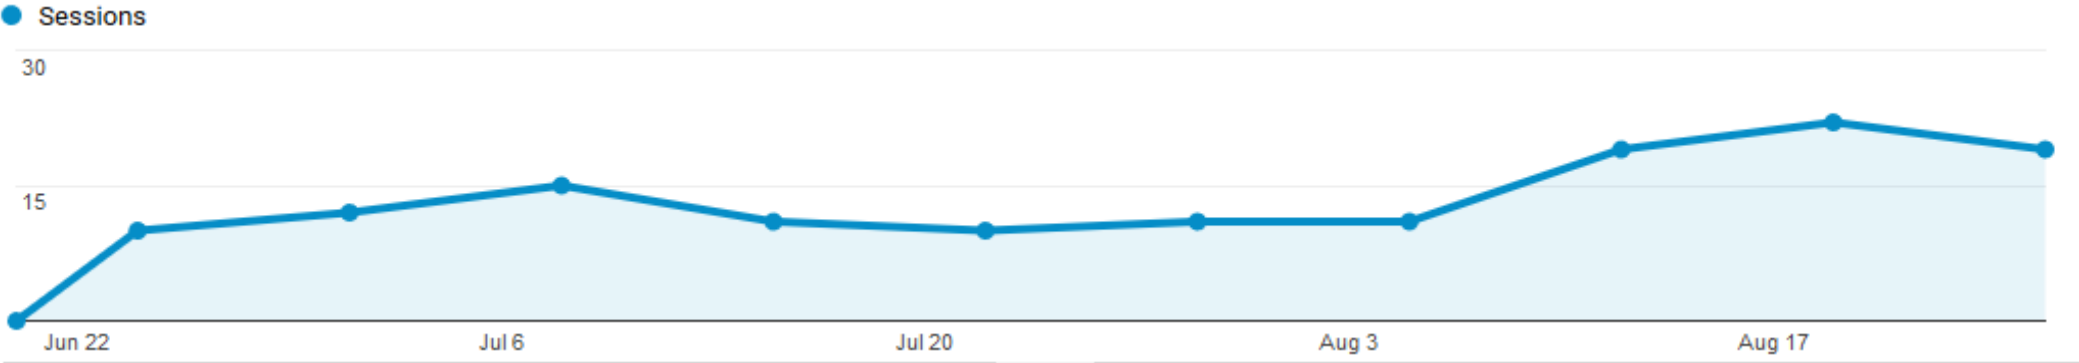

Overall Website Traffic

What you're seeing

A session is any time a new or repeat visitor lands on your website. Over time, want to see a steady increase in this website traffic. While it may fluctuate, the end goal is to see continued growth that is achieved by helping more patients find your business in a variety of ways.

Report

In the month of August, your sessions increased by 54%. This illustrates your SEO strategy is working, and continuing to drive more traffic to your website.

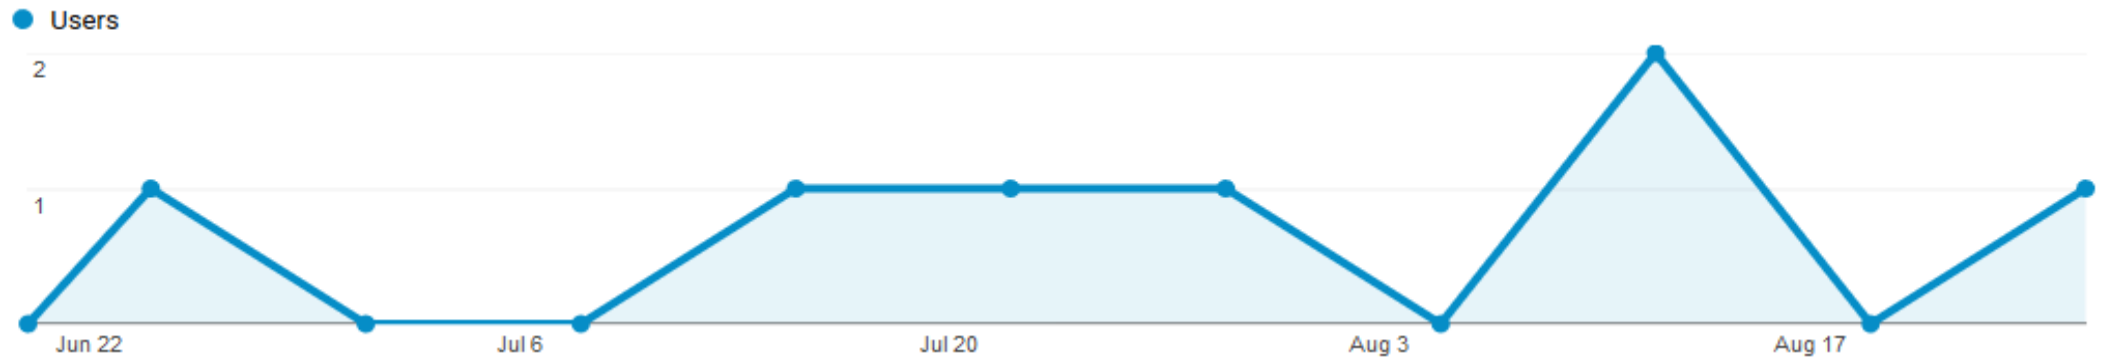

Organic Traffic Trend

What you're seeing

Organic Traffic is the backbone of your website traffic, and the core focus of our SEO efforts. The more organic traffic we can generate for your business, the higher up search engine lists you will go. Organic Traffic means patients are finding your business through "natural" methods such as searches on Google or Bing.

Report

Your Organic traffic continues to be same in August. We expect this to further rise as your SEO program matures.
